Stain & Odour Removers For Dogs

Why Simple Solution® Works

Most household cleaners contain detergents and phosphates which merely mask the odour with perfumes or loosen the stain. After time, odours and dirt return. Simple Solution® Stain & Odour Removers differ by using a Pro-Bacteria blend that produces enzymes. The enzymes lie dormant within the formula until such a time that it makes contact with the odour or stain. Only then, does the Pro-Bacteria blend produce an enzyme specific to digest the organic material and eliminate the odour and stain completely. Completely removing the stain and odour helps discourage re-marking in the same area.

Our products have proven to be very successful on areas such as:

- Carpets
- Rugs
- Upholstery

Simple Solution® Stain & Odour Removers eliminate all types of organic stains. Including those caused by:

- Urine
- Faeces
- Blood
- Vomit
- Hairballs
- Dirt
- Coffee
- Juice
- Wine
- Food
- Grass
- Fizzy Drinks

Surface-Specific Stain & Odour Removers

From hard floors to carpeting, our formulas are developed to treat specific types of flooring, without compromising stain and odour-fighting power.

Hardfloor Stain & Odour Remover

Specifically created for use on areas such as kitchen tiles, wooden floors, laminates and linoleum mats, Hardfloor formula cleans and freshens, leaving the area clean and mess free.

Multi-Surface Cleaner

Specially developed formula to maker it easier to remove pet stains like vomit urine and faeces from tiles, vinyl and concrete

Urine Destroyer

Formulated specifically to break down urine proteins dried into your carpet. Apply to dry stain and the formula re-wets the urine protein allowing the cleaning action to completely remove the smell.

Urine Dry Carpet Powder

Apply directly onto the urine puddle, the powder absorbs the wetness and makes for easier cleaning. No towelling or drying necessary. Once the urine is absorbed, the clumped powder can easily be picked up or vacuumed.

Scented Stain & Odour Removers

Our powerful bacteria and enzyme cleaning performance, now coupled with a delicate fragrance to add a crisp, clean smell to the area cleaned. Available in either Spring Breeze or Rainforest Fresh.

UV LED Spot Spotter™

UV LED Spot Spotter™

The 21 powerful ultraviolet LED lights quickly and easily find hidden stains. The source of frustrating mystery odours is detected by the Spot Spotter's UV light, which reveals pet urine and other biological contamination stains that may not appear in normal lighting conditions. Used in a darkened room, the Spot Spotter causes urine and other stains to glow, for easy recognition and cleanup.

Ultraviolet light reveals pet urine so you can find and remove the odour at its source in four easy steps:
